Subject: MLPAComments: Package S

To Whom It May Concern-

I would like to express my support for Package S with modifications.

As a dive shop owner, dive boat operator and avid recreational diver, I am concerned about the pressure we divers and others place on the popular underwater environment from Breakwater to Lovers Point out to a depth of 60'. In order to help protect this environment I recommend that the Ed Cooper State Marine Reserve (AKA Ricketts) be established between the Breakwater and Lovers Point.

Signed,
Michael Jones
